Hydrocarbon Processing

1972 Annual Editorial Index

Index reprints can be obtained by writing the Librarian,

HYDROCARBON PROCESSING,
Box 2608, Houston, Texas 77001

ABSORPTION
New separation process gives cheaper ammonia ..... July 106
Refining processes handbook ..... Sept. 111
ACETIC ACID
Lowest cost acetic via methanol ..... Nov. 76
Make VAM from ethylene ..... Nov. 141
ACRYLIC ACID
Oxidize propylene to acrylics ..... Nov. 85
New route to acrylic acid ..... Nov. 95
ACRYLONITRILE
How Montedison makes acrylo ..... Nov. 144
ADDITIVES
NPRA's '71 panel views processes ..... Apr. 131
Crude unit overhead corrosion ..... May 108
Refining processes handbook ..... Sept. 111
ADSORPTION
Refining processes handbook ..... Sept. 111
AERATORS
Select aerators carefully ..... Oct. 101
ALCOHOLS
For process designers . . . compressors & converters ..... June 129
Refining processes handbook ..... Sept. 111
Higher alcohols grow in '70s ..... Nov. 69
Lowest cost acetic via methanol ..... Nov. 76
How Asahi makes polyacetals ..... Nov. 111
Use cation catalyst for IPA ..... Nov. 113
ALDEHYDES
Refining processes handbook ..... Sept. 111
How Asahi makes polyacetals ..... Nov. 111
ALIGNING see SPECIFIC EQUIPMENT
ALKYLATION
NPRA's '71 panel views processes ..... April 131
Alkylation integrates acid plant ..... Aug. 87
Refining processes handbook ..... Sept. 111
AMINES
Tips on DEA treating ..... July 98
Refining processes handbook ..... Sept. 111
AMMONIA
Cut CO_2 removal costs by combining processes ..... Jan. 115
Advanced ammonia technology ..... Apr. 127
New separation process gives cheaper ammonia ..... July 106
Treat sour water for profit ..... Oct. 97
Caprolactam via HPO process ..... Nov. 92
Integrate for lowest urea cost ..... Nov. 125
How Montedison makes acrylo ..... Nov. 144
ANALYZING see also INSTRUMENTATION
Stream analyzer uses increase ..... Feb. 69
Mobile van speeds process tests ..... Feb. 71
To evaluate analyzer performance ..... Feb. 75
Better gasoline chromatography ..... Feb. 80
Select aerators carefully ..... Oct. 101
Sulfur in products vs. crude oil ..... Oct. 117
New tool for vibration analysis ..... Nov. 147
ANTIKNOCK RATING
Selectoform gasoline & LPG ..... May 97
Crack with new zeolitic catalyst ..... June 116
Alkylation integrates acid plant ..... Aug. 87
Refining processes handbook ..... Sept. 111
AROMATICS
Xylenes & higher aromatics (Part 6) ..... Jan. 93
(Part 7) ..... Feb. 101
(Part 8) ..... Apr. 114
Extract aromatics with FM ..... Apr. 141
Innovations in Flexicracking ..... May 92
Selectoform gasoline and LPG ..... May 97
Toluene for benzene and xylenes ..... Aug. 85
Refining processes handbook ..... Sept. 111
World benzene outlook ..... Nov. 117
Comparing distillation designs ..... Dec. 77
Dry gas to low dew points ..... Dec. 79
ASPHALT
Refining processes handbook ..... Sept. 111
BEARINGS see SPECIFIC EQUIPMENT
BEAVON PROCESS
Reduce Claus sulfur emission ..... Aur. 102
BENZENE
Toluene for benzene and xylenes ..... Aug. 85
World benzene outlook ..... Nov. 117
BI-GAS PROCESS
Make SNG from coal ..... Apr. 97
BLISTERING see CORROSION
BOXSCORE
Section 2 ..... February, June, October
BLOWERS see COMPRESSORS
BUTADIENE
Predict K's for butadiene systems ..... Mar. 94
Make CD from C_4 fractions ..... Aug. 102
BUTANE
Make C_3-C_4 from cat reforming ..... Apr. 152
What are light hydrocarbons worth? ..... July 92
Refining processes handbook ..... Sept. 111
New process isomerizes butanes ..... Nov. 161
CARBON OXIDES
Cut CO_2 removal costs by combining processes ..... Jan. 115
Thermo data refined for LPG (Parts 12 & 13) ..... Feb. 86
Refining processes handbook ..... Sept. 111
Higher alcohols grow in '70s ..... Nov. 69
Lowest cost acetic via methanol ..... Nov. 76
New route to acrylic acid ..... Nov. 95
Mixing rules improve BWR use ..... Nov. 152
CARBONYLATION
Higher alcohols grow in '70s ..... Nov. 69
Lowest cost acetic via methanol ..... Nov. 76
New route to acrylic acid ..... Nov. 95
CATALYSTS
When are fines in equilibrium? ..... Feb. 104
Process liquids to SNG ..... Apr. 89
Advanced ammonia technology ..... Apr. 127
Gulf explores riser cracking ..... May 85
Riser cracking gives advantages ..... May 89
Selectoform gasoline and LPG ..... May 97
Crack with new zeolitic catalyst ..... June 116
New HD polyethylene process ..... July 115
Toluene for benzene and xylenes ..... Aug. 85
Refining processes handbook ..... Sept. 111
Lowest cost acetic via methanol ..... Nov. 76
Oxidize propylene to acrylics ..... Nov. 85
Caprolactam via HPO process ..... Nov. 92
Cat crack for max olefins ..... Nov. 99
Oxychlorinate for per/tri ..... Nov. 109
Use cation catalyst for IPA ..... Nov. 113
What's new in HDPE processes ..... Nov. 130
Find polystyrene plant costs ..... Nov. 137
Make VAM from ethylene ..... Nov. 141
How Montedison makes acrylo ..... Nov. 144
New process isomerizes butanes ..... Nov. 161
Make new TPR rubber from C_4's ..... Dec. 71
CAVITATION see PUMPS
CERIUM
How Montedison makes acrylo ..... Nov. 144
CHLORINE
Oxychlorinate for per/tri ..... Nov. 109
CLARIFICATION
Refining processes handbook ..... Sept. 111
CLAUS PROCESS
Watch these trends in sulfur plant design ..... Mar. 105
Reduce Claus sulfur emission ..... Apr. 102
Control stack gas pollution ..... Sept. 223
Take sulfur out of waste gases ..... Oct. 125
CLEAN AIR PROCESS
Reduce Claus sulfur emission ..... Apr. 102
CO_2 ACCEPTOR PROCESS
Make SNG from coal ..... Apr. 97
COAL
Make SNG from coal ..... Apr. 97
HPI grows with clean fuel ..... May 133
COKING
CRG route to SNG ..... Apr. 94
NPRA's '71 panel views processes ..... Apr. 131
Refining processes handbook ..... Sept. 111
COMMUNICATIONS see TRAINING, MANAGEMENT
COMPRESSIBILITY
Calculate Z's for sour gases ..... May 119
Mixing rules improve BWR use ..... Nov. 152
COMPRESSORS
How to check process designs ..... Jan. 100
Specifying compressor lube and seal systems ..... May 127
First NPRA panel on refinery maintenance ..... June 121
For process designers—compressors & converters ..... June 129
Can specifications improve compressor reliability? ..... July 89
Some plant noise problems and solutions ..... Oct. 149
New tool for vibration analysis ..... Nov. 147
COMPUTERS
Computer checks steam cracker ..... Jan. 103
Mobile van speeds process tests ..... Feb. 71
Thermo data refined for LPG (Parts 12 & 13) ..... Feb. 86
Computer program sizes pipe ..... Mar. 112
Calculate Z's for sour gases ..... May 119
Thermo data refined for LPG (Part 14) ..... May 129
KYSO adds on-line computer ..... May 137
Thermo data refined for LPG (Part 15) ..... June 107
One step isometrics from models ..... July 95
Bang-bang control is faster ..... July 101
Computer updates instruments list ..... Aug. 93
Comparing distillation designs ..... Dec. 77
CONSTRUCTION BOXSCORE
Section 2 ..... February, June, October
CONTROL VALVES see VALVES, INSTRUMENTATION
COOLERS see HEAT TRANSFER
CORROSION
Check furnace tube condition in-place ..... Apr. 125
Crude unit overhead corrosion ..... May 108
Hydrogen plant shutdowns reduced ..... May 113
What corrosion allowance to specify ..... May 123
Will aluminizing reduce pipe & tubing corrosion? ..... June 127
Tips on DEA treating ..... July 98
Embrittlement ..... Aug. 65
Stress-corrosion cracking ..... Aug. 68
Hydrogen attack ..... Aug. 69
Pitting corrosion ..... Aug. 70
Creep and creep-rupture life ..... Aug. 71
Metal dusting ..... Aug. 73
Naphthenic acid corrosion ..... Aug. 76
Fuel ash corrosion ..... Aug. 76
Thermal fatigue ..... Aug. 78
Abrasive wear ..... Aug. 79
Refining processes handbook ..... Sept. 111
Sour water stripping problems ..... Oct. 107
Silica deposits in steam turbines ..... Dec. 87
COSTS
How cost-effective is your maintenance organization? ..... Jan. 81
What the maintenance engineer needs to know about process ..... Jan. 87
Cut CO_2 removal costs by combining processes ..... Jan. 115
Simplified air cooler estimating ..... Feb. 93
Optimize ethylene complex ..... Mar. 73
Can olefins meet 70s needs? ..... Mar. 83
Process liquids to SNG ..... Apr. 89
Make SNG from coal ..... Apr. 97
Reduce Claus sulfur emission ..... Apr. 102
New nitric acid process ..... Apr. 145
Gulf explores riser cracking ..... May 85
Vinyl acetate: how, where, who—future ..... May 153
Drivers for process pumps ..... June 95
Crack with new zeolitic catalyst ..... June 116
What are light hydrocarbons worth? ..... July 92
Alkylation integrates acid plant ..... Aug. 87
Refining processes handbook ..... Sept. 111
Find optimum furnace efficiency ..... Sept. 226
R.O. can help with wastes ..... Oct. 103
Make profit from flares ..... Oct. 121
Take sulfur out of waste gases ..... Oct. 125
Waste chemicals have value . . . sometimes ..... Oct. 168
Design pyrolysis heater for max profits ..... Nov. 79
Make HDPE this new way ..... Nov. 97
World benzene outlook ..... Nov. 117
Find polystyrene plant costs ..... Nov. 137
New process isomerizes butanes ..... Nov. 161
Know where OSHA is taking you ..... Dec. 65
What do jacketed reactors cost? ..... Dec. 102
CRACKING/CHEMICAL/
Computer checks steam cracker ..... Jan. 103
Mobile van speeds process tests ..... Feb. 71
NPRA's '71 panel views processes ..... Apr. 131
Gulf explores riser cracking ..... May 85
Riser cracking gives advantages ..... May 89
Innovations in Flexicracking ..... May 92
Crack with new zeolitic catalyst ..... June 116
Refining processes handbook ..... Sept. 111
Make fuel from plastic wastes ..... Oct. 161
Design pyrolysis heater for max profits ..... Nov. 79
Cat crack for max olefins ..... Nov. 99
CRACKING/FAILURES/see CORROSION
CREEP see METALLURGY
CRG PROCESS
CRG route to SNG ..... Apr. 94
CRYOGENICS
Thermo data refined for LPG (Parts 12 & 13) ..... Feb. 86
Which cycle for H_2 recovery ..... Mar. 101
Thermo data refined for LPG (Part 14) ..... May 129
(Part 15) ..... June 107
CYCLODODECANE
CDT/CD from C_4 fractions ..... Aug. 102
CYCLODODECATRIENE
CDT/CD from C_4 fractions ..... Aug. 102
CYCLOHEXANONE
Caprolactam via HPO process ..... Nov. 92
CYCLOHEXANONE OXIME
Caprolactam via HPO process ..... Nov. 92
CYCLOPENTENE
Make new TPR rubber from C_5's ..... Dec. 71
DECARBONIZING
Refining processes handbook ..... Sept. 111
DECARBURIZING see CORROSION
DESALTING
Crude unit overhead corrosion ..... May 108
Refining processes handbook ..... Sept. 111
DICHLOROBENZENE
Newest thermoplastic—PPS ..... Nov. 89
DISPROPORTIONATION
Toluene for benzene and xylenes ..... Aug. 85
DISTILLATION
How to check process designs ..... Jan. 100
How weeping affects distillation ..... Mar. 109
Crude unit overhead corrosion ..... May 108
Figure furfural extraction yields ..... June 136
New separation process gives cheaper ammonia ..... July 106
Predict distillation efficiency ..... July 111
Refining process handbook ..... Sept. 111
Sulfur in products vs. crude oil ..... Oct. 117

Comparing distillation designs.....Dec. 77
Dry gas to low dew points.....Dec. 79
DOWNTIME see MAINTENANCE
DRAINING
How weeping affects distillation.....Mar. 109
DRAWINGS
Try a coordinated drafting system.....Mar. 131
One step isometrics from models.....July 95
DRIVERS see also MOTORS, TURBINES
Pump reliability specifications.....June 86
DRIZO PROCESS
Dry gas to low dew points.....Dec. 79
DRYING
Refining processes handbook.....Sept. 111
Dry gas to low dew points.....Dec. 79
DUAL-LADDER see MANAGEMENT
ECONOMICS see COSTS
ELECTRODES see WELDING
ELECTROPHORESIS
Refining processes handbook.....Sept. 111
EMBRITTLEMENT see CORROSION
EMISSION see POLLUTION
EMPLOYES see also MANAGEMENT
Motivation: key to productivity.....Jan. 77
Why professionals join unions.....Jan. 131
Be a better supervisor (Part 2).....Mar. 125
Is overtime work really fair?.....Apr. 173
Upgrade your persuasive ability.....Sept. 245
Know where OSHA is taking you.....Dec. 65
Train operators for safety.....Dec. 54
Don't isolate your R&D staff.....Dec. 104
ENVIRONMENT see POLLUTION
ESTERS
Refining processes handbook.....Sept. 111
Oxidize propylene to acrylics.....Nov. 85
ETHANE
Applied hydrocarbon thermodynamics (Part 43).....May 145
What are light hydrocarbons worth?..July 92
Why methanate SNG?.....Aug. 91
Cat crack for max olefins.....Nov. 99
ETHYLENE
Optimize ethylene complex.....Mar. 73
Can olefins meet '70s needs?.....Mar. 83
Applied hydrocarbon thermodynamics (Part 43).....May 145
New HD polyethylene process.....July 115
Design pyrolysis heater for max design..Nov. 79
New route to acrylic acid.....Nov. 95
Make HDPE this new way.....Nov. 97
Cat crack for max olefins.....Nov. 99
Oxychlorinate for per/tri.....Nov. 109
What's new in HDPE processes.....Nov. 130
Make VAM from ethylene.....Nov. 141
EXCHANGERS see HEAT TRANSFER
EXTRACTION
Extract ammonia with FM.....Apr. 141
Figure furfural extraction yields.....June 136
Refining processes handbook.....Sept. 111
FANS
Simplified air cooler estimating.....Feb. 93
FATIGUE see CORROSION
FERTILIZER
Use sulfur in fertilizers.....July 86
FILTRATION
Tips on DEA treating.....July 98
Refining processes handbook.....Sept. 111
FIRE see SAFETY
FLARING
Unique flare system retards smoke.....Jan. 127
Make profit from flares.....Oct. 121
Flare noise: causes and cures.....Oct. 143
FLEXICRACKING PROCESS
Innovations in Flexicracking.....May 92
Refining processes handbook.....Sept. 111
FLUIDIZING
When are fines in equilibrium.....Feb. 104
How Montedison makes acrylo.....Nov. 144
FOAM
Control LNG spill fires.....Dec. 61
FORECASTING
Estimate downtime improvements will save.....Jan. 73
Xylenes & higher aromatics (Part 6)..Jan. 93
(Part 7).....Feb. 101
Can olefins meet '70s needs?.....Mar. 83
Xylenes & higher aromatics (Part 8)..Apr. 114
More C_8-C_9 from cat reforming.....Apr. 152
Vinyl acetate: how, where, who—future.....May 153
Find new uses for sulfur.....July 79
World benzene outlook.....Nov. 117
FORMALDEHYDE
How Asahi makes polyacetals.....Nov. 111
FORMEX PROCESS
Extract aromatics with FM.....Apr. 141
N-FORMYLMORPHOLINE
Extract ammonia with FM.....Apr. 141
FOUNDATIONS
Better pile uplift connection.....Aug. 105
Design saddle supports for vessels.....Nov. 157
FURFURAL
Figure furfural extraction yields.....June 136
Refining processes handbook.....Sept. 111
FURNACES
Computer checks steam cracker.....Jan. 103
Reduce control valve & furnace noise..Mar. 97
How to repair weld HK-40 furnace tubes.....Apr. 121
Check furnace tube condition in-place..Apr. 125
How SOCAL built a quiet crude unit..May 102
Hydrogen plant shutdowns reduced...May 113
What corrosion allowance to specify...May 123
First NPRA panel on refinery maintenance.....June 121
Will aluminizing reduce pipe & tubing corrosion?.....June 127
Creep and creep-rupture life.....Aug. 71
Find optimum furnace efficiency.....Sept. 226
Design pyrolysis heater for max profits.Nov. 79
GASKETS
First NPRA panel on refinery maintenance.....June 121
GEARS
Pump reliability specifications.....June 86
GLYCOLS
Refining processes handbook.....Sept. 111
Dry gas to low dew points.....Dec. 79
GRIEVANCES see MANAGEMENT
GULF FCC PROCESS
Gulf explores riser cracking.....May 85
Refining processes handbook.....Sept. 111
HARDFACING see MAINTENANCE
HEALTH see SAFETY
HEAT EXCHANGERS see HEAT TRANSFER
HEAT TRANSFER
How to check process designs.....Jan. 100
Computer checks steam cracker.....Jan. 103
Simplified air cooler estimating.....Feb. 93
How SOCAL built a quiet crude unit..May 102
What corrosion allowance to specify...May 123
First NPRA panel on refinery maintenance.....June 121
Will aluminizing reduce pipe & tubing corrosion?.....June 127
Refining processes handbook.....Sept. 111
Find optimum furnace efficiency.....Sept. 226
Design pyrolysis heater for max profits.Nov. 79
How not to buy heat exchangers.....Dec. 83
HYDRATION
Use cation catalyst for IPA.....Nov. 113
HYDROCRACKING
NPRA's '71 panel views processes.....Apr. 131
Refining processes handbook.....Sept. 111
HYDROGEN
Cut CO_2 removal costs by combining processes.....Jan. 115
Which cycle for H_2 recovery?.....Mar. 101
Hydrogen attack.....Aug. 69
Why methanate SNG?.....Aug. 91
Refining processes handbook.....Sept. 111
Higher alcohols grow in '70s.....Nov. 69
HYDROGEN SULFIDE
Cut CO_2 removal costs by combining processes.....Jan. 115
Thermo data refined for LPG (Parts 12 & 13).....Feb. 86
Watch these trends in sulfur plant design.....Mar. 105
Alkylation integrates acid plant.....Aug. 87
Refining processes handbook.....Sept. 111
Treat sour water for profit.....Oct. 97
Sour water stripping problems.....Oct. 107
Take sulfur out of waste gases.....Oct. 125
Mixing rules improve BWR use.....Nov. 152
HYDROGENATION
Refining processes handbook.....Sept. 111
HYDROTREATING
Refining processes handbook.....Sept. 111
HYGAS PROCESS
Make SNG from coal.....Apr. 97
INSTRUMENTATION
Stream analyzer uses increase.....Feb. 69
Mobile van speeds process tests.....Feb. 71
To evaluate analyzer performance....Feb. 75
Better gasoline chromatography.....Feb. 80
Automate controls for profit.....Apr. 107
Where to locate thermowells.....Apr. 147
Specifying compressor lube and seal systems.....May 127
KYSO adds on-line computer.....May 137
Bang-bang control is faster.....July 101
Computer updates instrument list.....Aug. 93
Automation for plant emergencies.....Dec. 57
INSULATION
Reduce control valve & furnace noise..Mar. 97
Some plant noise problems and solutions.....Oct. 149
ION EXCHANGE
Use cation catalyst for IPA.....Nov. 113
ISOBUTANE
More C_3-C_4 from cat reforming.....Apr. 152
Refining processes handbook.....Sept. 111
New process isomerizes butanes.....Nov. 161
ISOMERIZATION
Toluene for benzene and xylenes.....Aug. 85
Refining processes handbook.....Sept. 111
New process isomerizes butanes.....Nov. 161
ISOPENTANE
Refining processes handbook.....Sept. 111
ISOPROPANOL
Use cation catalyst for IPA.....Nov. 113
JOBS see MANAGEMENT
KETONES
Refining processes handbook.....Sept. 111
LAWS
What governments expect.....Oct. 85
A planned approach to cleanup.....Oct. 173
Know where OSHA is taking you.....Dec. 65
LIQUEFIED NATURAL GAS (LNG)
HPI grows with clean fuels.....May 133
Control LNG-spill fires.....Dec. 61
LIQUEFIED PETROLEUM GAS (LPG)
CRG route to SNG.....Apr. 94
Selectoform gasoline and LPG.....May 97
Thermo data refined for LPG (Part 14).....May 129
HPI grows with clean fuels.....May 133
Thermo data refined for LPG (Part 15).....June 107
MRG process for SNG.....Aug. 81
Refining processes handbook.....Sept. 111
LUBRICANTS
Refining processes handbook.....Sept. 111
MAINTENANCE
Estimate downtime improvements will save.....Jan. 73
Motivation: key to productivity.....Jan. 77
How cost-effective is your maintenance organization?.....Jan. 81
What the maintenance engineer needs to know about operations.....Jan. 88
Pumps: a trouble-shooting guide.....Jan. 91
Stream analyzer uses increase.....Feb. 69
A new route to craft organization....Feb. 85
How to repair weld HK-40 furnace tubes.....Apr. 121
Check furnace tube condition in-place..Apr. 125
What corrosion allowance to specify..May 123
First NPRA panel on refinery maintenance.....June 121
The engineer as a meeting planner....Aug. 102
The short work week has arrived.....Aug. 112
Refining processes handbook.....Sept. 111
Some plant noise problems and solutions.....Oct. 149
New tool for vibration analysis.....Nov. 147
MANAGEMENT
Motivation: key to productivity.....Jan. 77
Why professionals join unions.....Jan. 131
A new route to craft organization.....Feb. 85
Keep up with OSHA (Part 2).....Feb. 107
Be a better supervisor (Part 1).....Feb. 117
Technical speeches can be fun.....Feb. 121
Be a better supervisor (Part 2).....Mar. 125
Eliminate job dissatisfiers first.....Mar. 142
Seven steps to successful meetings.....Apr. 169
Is overtime work really fair?.....Apr. 173
The "now generation" engineer.....May 183
Build your own writing program.....May 189
Encounter group—one year after.....June 145
Keep up with OSHA (Part 3).....July 117
Dual path career plans a myth.....July 118
Try this counseling method.....July 122
What is your motivational IQ?.....July 123
The engineer as a meeting planner....Aug. 107
The short work week has arrived.....Aug. 112
Overcome communication barriers....Sept. 235
Upgrade your persuasive ability.....Sept. 245
Manage the environment with imagination.....Oct. 79
What governments expect.....Oct. 85
Build more effective teams.....Nov. 197
How today's engineer sees himself.....Nov. 207
I'd like to be a manager.....Nov. 215
Know where OSHA is taking you.....Dec. 65
Don't isolate your R&D staff.....Dec. 104
METAL DUSTING see CORROSION
METALLURGY
How to repair weld HK-40 furnace tubes.....Apr. 121
What corrosion allowance to specify..May 123
Material selection for pumps.....June 93
Embrittlement.....Aug. 65
Stress-corrosion cracking.....Aug. 68
Hydrogen attack.....Aug. 69
Pitting corrosion.....Aug. 70
Creep and creep-rupture life.....Aug. 71
Metal dusting.....Aug. 73
Naphthenic acid corrosion.....Aug. 75
Fuel ash corrosion.....Aug. 76
Thermal fatigue.....Aug. 78
Abrasive wear.....Aug. 79
Refining processes handbook.....Sept. 111
METHANATION see SUBSTITUTE NATURAL GAS
MODELS
One step isometrics from models.....July 95
MOLYBDENUM
Oxidize propylene to acrylics.....Nov. 85
How Montedison makes acrylo.....Nov. 144
MOTORS
Simplified air cooler estimating.....Feb. 93
Pump reliability specifications.....June 86
Drivers for process pumps.....June 95
MRG PROCESS
MRG process for SNG.....Aug. 81
MURPHREE EFFICIENCY
Predict distillation efficiency.....July 111
NAPHTHA
Better gasoline chromatography.....Feb. 80
Optimize ethylene complex.....Mar. 73
CRG route to SNG.....Apr. 94
MRG process for SNG.....Aug. 81
Refining processes handbook.....Sept. 111
NAPHTHENIC ACIDS
Naphthenic acid corrosion.....Aug. 75
NATURAL GASES see also specific, e.g., LIQUEFIED NATURAL GAS, SUBSTITUTE NATURAL GAS, etc.
Automate control for profit.....Apr. 107
Advanced ammonia technology.....Apr. 127
HPI grows with clean fuels.....May 133
Applied hydrocarbon thermodynamics (Part 43).....May 145
What are light hydrocarbons worth?..July 92
Tips on DEA treating.....July 98
Why methanate SNG?.....Aug. 91
Refining processes handbook.....Sept. 111
Dry gas to low dew points.....Dec. 79
NITRIC ACID
New nitric acid process.....Apr. 145
Improve nitric acid processes.....May 141
NITROGEN OXIDES
Source/control of air pollution.....Oct. 113
Reduce NO_x in stack gases.....Nov. 163
NOISE
Reduce control valve & furnace noise..Mar. 97
How SOCAL built a quiet crude unit..May 102
Valves can be quiet.....Oct. 137
Flare noise: causes and cures.....Oct. 143
Some plant noise problems and solutions.....Oct. 149
NOZZLES
How to size pump suction piping.....Apr. 119

Where to locate thermowells.....Apr. 147
Allowable pump piping loads.....June 98
NYLON
CDT/CD from C_4 fractions.....Aug. 102
OCTANE NUMBER see ANTIKNOCK RATING
ODORS
Source/control of air pollution.....Oct. 113
OLEFINS
Optimize ethylene complex.....Mar. 73
Can olefins meet '70s needs?.....Mar. 83
Applied hydrocarbon thermodynamics (Part 43).....Mar. 145
New HD polyethylene process.....July 115
Refining processes handbook.....Sept. 111
Higher alcohols grow in '70s.....Nov. 69
Design pyrolysis heater for max profits.Nov. 79
Oxidize propylene to acrylics.....Nov. 85
New route to acrylic acid.....Nov. 95
Make HDPE this new way.....Nov. 97
Cat crack for olefins.....Nov. 99
Oxychlorinate for per/tri.....Nov. 109
Use cation catalyst for IPA.....Nov. 113
What's new in HDPE processes.....Nov. 130
Make VAM from ethylene.....Nov. 141
How Montedison makes acrylo.....Nov. 144
OSHA see SAFETY, POLLUTION
OVERLAYING see CORROSION
OVERTIME see MANAGEMENT
OXIDATION
Oxidize propylene to acrylics.....Nov. 85
New route to acrylic acid.....Nov. 95
Oxychlorinate for per/tri.....Nov. 109
Make VAM from ethylene.....Nov. 141
OXIMATION
Caprolactam via HPO process.....Nov. 92
OXYCHLORINATION
Oxychlorinate for per/tri.....Nov. 109
PACKING see also PUMPS
First NPRA panel on refinery maintenance.....June 121
PALLADIUM
Make VAM from ethylene.....Nov. 141
PARTICULATES see POLLUTION
PENTANE
More C_5-C_6 from cat reforming.....Apr. 152
Refining processes handbook.....Sept. 111
PERCHLOROETHYLENE
Oxychlorinate for per/tri.....Nov. 109
PERSONNEL see EMPLOYES, MANAGEMENT
PHENOLS
Refining processes handbook.....Sept. 111
Sour water stripping problems.....Oct. 107
PIGTAILS see FURNACES
PILES see FOUNDATIONS
PIPING
How to check process designs.....Jan. 100
Computer checks steam cracker.....Jan. 103
Simplified air cooler estimating.....Feb. 93
How discharge piping affects pump performance.....Mar. 89
Reduce control valve & combustion noise.....Mar. 97
Computer program sizes pipe.....Mar. 112
How to size pump suction piping.....Apr. 119
How to repair weld HK-40 furnace tubes.....Apr. 121
Check furnace tube condition in-place.Apr. 125
Where to locate thermowells.....Apr. 147
Hydrogen plant shutdowns reduced....May 113
What corrosion allowance to specify...May 123
Allowable pump-piping loads.....June 98
Pumps: inspection, shipping & installation.....June 105
First NPRA panel on refinery maintenance.....June 121
Will aluminizing reduce pipe & tubing corrosion?.....June 127
Creep and creep-rupture life.....Aug. 71
PITTING see CORROSION
PLASTICIZERS
Higher alcohols grow in '70s.....Nov. 69
PLOTTERS see COMPUTERS
POLLUTION
Unique flare system retards smoke....Jan. 127
Keep up with OSHA (Part 2).....Feb. 107
Plant design to protect environment....Mar. 115
Reduce Claus sulfur emission.....Apr. 102
Keep up with OSHA (Part 3).....July 117
Control stack gas pollution.....Sept. 223
Manage the environment with imagination.....Oct. 79
What governments expect.....Oct. 85
R.O. can help with wastes.....Oct. 103
Source/control of air pollution.....Oct. 113
Make profit from flares.....Oct. 121
Make fuel from plastic wastes.....Oct. 161
Good sampling saves money.....Oct. 164
Waste chemicals have value . . . sometimes.....Oct. 168
A planned approach to "cleanup".....Oct. 173
Reduce NO_x in stack gases.....Nov. 163
Control LNG spill fires.....Dec.
POLYACETAL RESINS
How Asahi makes polyacetals.....Nov. 111
POLYETHYLENE
New HD-polyethylene process.....July 115
Make HDPE this new way.....Nov. 97
What's new in HDPE processes.....Nov. 130
POLYPHENYLENE SULFIDE
Newest thermoplastic—PPS.....Nov. 89
POLYSTYRENE
Find polystyrene plant costs.....Nov. 137
PRESSURE GASIFICATION PROCESS
Make SNG from coal.....Apr. 97
PRESSURE VESSEL see VESSELS
PROPANE
More C_3-C_4 from cat reforming.....Apr. 152
What are light hydrocarbons worth?...July 92
MRG process for SNG.....Aug. 81
Refining processes handbook.....Sept. 111
Cat crack for max olefins.....Nov. 99
PROPYLENE
Oxidize propylene to acylics.....Nov. 85
Catt crack for max olefins.....Nov. 99
Use cation catalyst for IPA.....Nov. 113
How Montedison makes acrylo.....Nov. 144
PUMPS
Pumps: a trouble-shooting guide.....Jan. 91
How discharge piping affects pump performance.....Mar. 89
How to size up pump suction piping...Apr. 119
Highlights of API pump standards....June 85
Pump reliability specifications.....June 86
Specifying pump couplings, bearings, seals & packing.....June 90
Material selection for pumps.....June 93
Drivers for process pumps.....June 95
Allowable pump piping loads.....June 98
Pump performance characteristics.....June 101
Pumps: inspection, shipping & installation.....June 105
REACTORS
How to check process designs.....Jan. 100
Computer checks steam cracker.....Jan. 103
For process designers . . . compressors & converters.....June 127
Refining processes handbook.....Sept. 111
What do jacketed reactors cost?.....Dec. 102
REBOILERS see FURNACES, HEAT TRANSFER
REFINING PROCESSES HANDBOOK.Sept. 111
REFORMING
Advanced ammonia technology.....Apr. 127
NPRA's '71 panel views processes.....Apr. 131
More C_5-C_6 from cat reforming.....Apr. 152
Selectoform gasoline and LPG.....May 97
Hydrogen plant shutdown reduced....May 113
Refining processes handbook.....Sept. 111
REFRACTORIES
Fuel ash corrosion.....Aug. 76
REFRIGERATION
Which cycle for H_2 recovery?.....Mar. 101
Refining processes handbook.....Sept. 111
RESIDUES
Refining processes handbook.....Sept. 111
Sulfur in products vs. crude oil.....Oct. 117
REVERSE OSMOSIS
R.O. can help with wastes.....Oct. 103
SADDLES see FOUNDATIONS
SAFETY
Unique flare system retards smoke....Jan. 127
Keep up with OSHA (Part 2).....Feb. 107
Fire & safety information (Part 1)...Apr. 163
How SOCAL built a quiet crude unit..May 102
Fire & safety information (Part 2)....May 162
Keep up with OSHA (Part 3).....July 117
What governments expect.....Oct. 85
Valves can be quiet.....Oct. 137
Flare noise: causes and cures.....Oct. 143
Some plant noise problems and solutions.....Oct. 149
A planned approach to "cleanup".....Oct. 173
Know where OSHA is taking you.....Dec. 65
Learn from HPI plant fires.....Dec. 49
Automation for plant emergencies.....Dec. 57
Control LNG-spill fires.....Dec. 61
SAMPLING see also INSTRUMENTATION
Good sampling saves money.....Oct. 164
SCHEDULING
The engineer as a meeting planner....Aug. 107
The short work week has arrived.....Aug. 112
SEALS see also PUMPS
Pump reliability specifications.....June 86
First NPRA panel on refinery maintenance.....June 121
SELECTOFORMING PROCESS
Selectoform gasoline and LPG.....May 97
SHUTDOWNS see MAINTENANCE
SOLVENT REFINING
Figure furfural extraction yields.....June 136
Refining processes handbook.....Sept. 111
SPECIFICATIONS
Try a coordinated drafting system...Mar. 131
How SOCAL built a quiet crude unit..May 102
Specifying compressor lube and seal systems.....May 127
Highlights of API 610 pump standards.June 85
Pump reliability specifications.....June 86
Drivers for process pumps.....June 95
Allowable pump piping loads.....June 98
Pump performance characteristics.....June 101
Pumps: inspection, shipping & installation.....June 105
Can specifications improve compressor reliability?.....July 89
Select aerators carefully.....Oct. 101
SPRAYING
Unique flare system retards smoke....Jan. 127
Refining processes handbook.....Sept. 111
STACKS
Control stack gas pollution.....Sept. 223
STANDARDS
To evaluate analyzer performance.....Feb. 75
Highlights of API 610 pump standards.June 85
Pump reliability specifications.....June 86
Specifying pump couplings, bearings, seals & packing.....June 90
Drivers for process pumps.....June 95
Allowable pump piping loads.....June 98
Pumps: inspection, shipping & installation.....June 105
STARTUP
Pumps: inspection, shipping & installation.....June 105
STRETFORD PROCESS
Reduce Claus sulfur emission.....Apr. 102
STRIPPING
Treat sour water for profit.....Oct. 97
Sour water stripping problems.....Oct. 107
STYRENE
Find polystyrene plant costs.....Nov. 137
SUBSTITUTE NATURAL GAS (SNG)
Process liquid to SNG.....Apr. 89
CRG route to SNG.....Apr. 94
Make SNG from coal.....Apr. 97
HPI grows with clean fuels.....May 133
MRG process for SNG.....Aug. 81
Why methanate SNG?.....Aug. 91
SULFOLANE
Refining processes handbook.....Sept. 111
SULFUR
Watch these trends in sulfur plant design.....Mar. 105
What makes sulfur unique.....July 75
Find new uses for sulfur.....July 79
Use sulfur in fertilizers.....July 86
Refining processes handbook.....Sept. 111
Control stack gas pollution.....Sept. 223
Sulfur in products vs. crude oil.....Oct. 117
SULFUR OXIDES
Reduce Claus sulfur emission.....Apr. 102
Refining processes handbook.....Sept. 111
Control stack gas pollution.....Sept. 223
Source/control of air pollution.....Oct. 113
Take sulfur out of waste gases.....Oct. 125
SULFURIC ACID
Alkylation integrates acid plant.....Aug. 87
Refining processes handbook.....Sept. 111
SUPERVISION
Motivation: key to productivity.....Jan. 77
Why professionals join unions.....Jan. 131
Keep up with OSHA (Part 2).....Feb. 107
Be a better supervisor (Part 2).....Mar. 125
Eliminate job dissatisfiers first.....Mar. 142
Is overtime work really fair?.....Apr. 173
The "now" generation engineer.....May 183
Keep up with OSHA (Part 3).....July 117
Know where OSHA is taking you.....Dec. 65
Don't isolate your R&D staff.....Dec. 104
SYNTHANE PROCESS
Make SNG from coal.....Apr. 97
SYNTHETIC RUBBER
Find polystyrene plant costs.....Nov. 137
Make new TPR rubber from C_5's.....Dec. 71
TELLURIUM
How Montedison makes acrylo.....Nov. 144
TEREPHTHALIC ACID
Compare pure TPA processes.....Nov. 103
THERMODYNAMICS
Applied hydrocarbon thermodynamics (Part 42).....Jan. 109
Thermo data refined for LPG (Parts 12 & 13).....Feb. 86
Predict K's for butadiene systems.....Mar. 94
Calculate Z's for sour gases.....May 119
Thermo data refined for LPG (Part 14).....May 129
Applied hydrocarbon thermodynamics (Part 43).....May 145
Thermo data refined for LPG (Part 15).....June 107
Applied hydrocarbon thermodynamics (Part 44).....Aug. 97
Mixing rules improve BWR use.....Nov. 152
Reduce NO_x in stack gases.....Nov. 163
Applied hydrocarbon thermodynamics (Part 45).....Nov. 165
Applied hydrocarbon thermodynamics (Part 46).....Dec. 93
THERMOWELLS
Where to locate thermowells.....Apr. 147
TOLUENE
Toluene from benzene and xylenes.....Aug. 85
Dry gas to low dew points.....Dec. 79
TOWERS see VESSELS
TRAINING
Motivation: key to productivity.....Jan. 77
What the maintenance engineer needs to know about process.....Jan. 87
What maintenance needs to know about operations.....Jan. 88
A new route to craft organization....Feb. 85
